

- Meets AWWA C708 Accuracy
- Pulse Output
- Removable Register for flush/test Plug
- Compact Design
- Various Body Sizes
- Hot and Cold Water Available

The VersaMag is a compact multijet type water meter that is flexible to many applications. Along with the VersaMag's compact design, the removable register allows for pressure test and flushing without damage to the register elements. With its ability for the toughest of applications, the VersaMag also comes in four body sizes utilizing the same register. With all of these features the VersaMag is the complete meter for any submetering application. The VersaMag can be installed in a horizontal or vertical manner.

NOTE: Not recommended for installations in which register is facing down.

Technical Characteristics
